Work History

2020-03 - 2021-12

Software Developer

Connexxion Group, Maitama, FCT

- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Translated verbal customer requirements into written use cases and testable development stories.
- Gathered and defined customer requirements to develop clear specifications for project plans.
- Participated in software field testing to verify in-situ performance of developed projects.
- Led version control efforts for organization, employing GitHub and other public and open source repositories.
- Collaborated on all stages of systems development lifecycle from requirement gathering to production releases.
- Coordinated with project management staff on database development timelines and project scope.

2016-08 - 2019-07

Web Developer

Hypertech Consults Ltd, Garki, FCT

- Determined coding requirements for site creation, e-commerce capability, security and specialized scripts.
- Implemented website maintenance, content management, updates and security resource tutorials to assist end-user training.
- Generated web hosting presence to accommodate specified needs, uploading and maintaining files on account.
- Embedded media into sites using reliable, streamlined protocols and technologies.
- Built and styled new mobile-friendly websites,

transitioning legacy presentations to simultaneous easy-to-use versions.

- Coded websites using HTML, CSS, JavaScript and jQuery languages.
- Discussed site and app requirements with clients to produce actionable development plans and budgets.
- Employed search engine optimization tactics to increase reach of targeted audience.

2016-01 - 2019-01

Webmaster

Osunde Softech, Garki, FCT

- Configured and purchased domains for websites.
- Provided front-end website development using WordPress, Hubspot and other editing software.
- Troubleshot issues with websites and fixed scripting and use issues.
- Validated personal coding and third-party code to verify compliance with internal standards and technical requirements.
- Oversaw back-end development using PHP to maintain website integrity, security and efficiency.

2013-06 - 2014-11

Junior Web Developer

Nugen IT Solutions, Jalandhar, Punjab, India

- Built over 30 website interfaces with HTML and CSS from scratch.
- Developed page layouts and navigation tools that met or exceeded user expectations.
- Established presentation consistency across Chrome, Safari, Firefox and other common browser interfaces.
- Drafted customized layout and wireframes based on predetermined parameters and expectations.
- Collaborated with graphic design personnel to integrate images as basic site components.

2012-01 - 2012-07

Computer Instructor

Hypertech Consults Ltd, Garki, FCT

- Delivered engaging curriculum through diverse methods of classroom instruction, computer lab activities and online learning systems.
- Conduct basic and advanced computer training on

Microsoft suite and Oracle Database 10g
- Set and conduct test to determine student's level of understanding on various subjects previously discussed.

Projects

CNX247 ERP Solution
March 2020 - September 2020
URL: http://www.cnx247.com
An Enterprise Resource Planning software for businesses of various size. The software solution has features such as workflow, workgroups, communication features, news feed, accounting among other useful features for any forward thinking organization.

CNX Accounting
July 2020 - September 2020
This software solution is an excerpt of the ERP solution mentioned above. Since not every organization may have an eye for an ERP solution, the accounting module of the ERP solution was developed to target those within the accounting sector. To carry out operations such as report generation, issuing invoices as well as bills.

Masterly

August 2019 - December 2019
URL: https://masterly.uk
An interactive educational platform for data analyst from all works of life. It is a conference point for both modelers and clients where modelers bid for projects and clients in turn award project to a more suitable prospect for execution.
